# Maximize Your Profits, Manage Your Expenses More Tightly

## Seamless Integrations

rBudget™ integrates with leading CRE accounting and data management solutions, including JD Edwards®, Yardi®, MRI® and others.

## A Wide Range of Reports

rBudget can generate a variety of reports so users have the exact data they need, when they need it. These reports include:

- Leasing Activity
- Rent Roll
- Occupancy Report
- Occupancy Variance
- Vacancy Report
- Expiration Report
- Tenant Capital
- Tenant Income
- Recovery Detail
- Tenant Financial Comparison

Plus numerous configurable financial reports and exports, including multi-year and multi-budget comparisons.

rBudget enables users to effortlessly create, manage and update detailed, accurate operating budgets and reforecasts for all types of CRE assets. Secure and easy to learn and use, rBudget is a must-have tool for anyone who develops and manages CRE budgets.
